

REFUND POLICY AND PROCESS: Should you believe that a payment processed via this portal was made in error or should for any other reason be refunded, please advise us as soon as possible, preferably immediately. Payments made are, in most circumstances, not refundable. However, we recognize that errors could occur such as, but not limited to, overpayments, duplicate payments, or an unintended source of payment being entered. To request a refund, please either call Valor Intelligent Processing, LLC at 1-844-724-5158, or email us at contact@valorvip.com, and place 'refund request' on the subject line. When contacting us, please have available, or provide in your email, your name, the Valor reference number, the amount paid, the method of payment, the date and time of payment, and a detailed explanation of why you request a refund. Refund requests will be reviewed internally by Valor in most instances within 5 days. If a refund is authorized, the method of refund, when possible, will be a reversal of the original payment method.
